Work Experience

Demonstrator   2023 July - Present

IJSE-Institute of Software Engineering | Galle

Projects

Pilisaru - Waste Management System

Associate with Pilisaru Organic Fertilizer Manufacturing Complex

Award-winning "Pilisaru" by Team Zyko enhances waste management sustainably, using Java, JavaFX, MySQL, and CSS, winning Best Teamwork at Innovesta 2023.

DKF - Garment Factory Management System

Associate with Dollar Kint Fabric

For the 1st-semester final project at IJSE's GDSE program, developed software for a garment factory managing operations, orders, inventory, and employees. Utilized Java, MySQL, JDBC, Jasper Reports, JavaFX, CSS. Achieved 7th place for innovation.

D24 - Hostel Management System

Associate with IJSE

Developed D24 Hostel Student Registration and Room Management System using Java, JavaFX, MySQL, Hibernate for Colombo university, enhancing efficiency and security.

Chat App

Associate with IJSE

Developed real-time chat system for Play Tech Pvt Ltd's customer service, enabling instant messaging with robust security and scalability. Improved team collaboration.

Hello shoe web app

Associate with IJSE

Developing a shoe management system named "Hello Shoe" with Spring Boot for backend, JWT for authentication, and JS, HTML, and CSS for frontend.

Car Hire - Car Rental Management System

Created a Java-based Car Rental Management System using JavaFX, Hibernate, and MySQL, demonstrating expertise in Java development, database management, and user interface design.

IJSE - Course Web

Developing a course website for IJSE with a team, utilizing Spring Boot for backend, JWT for authentication, and React for frontend.

About Me

Dewmith Mihisara, software engineering student at IJSE. Tech enthusiast. Problem-solving and teamwork lover. Seeking real-world experience. Let's connect for software engineering impact!

Education

GDSE - Graduate Diploma in Software Engineering

IJSE-Institute of Software Engineering

2022 - Precent

GCE Ordinary Level

St.Aloysius College

2011 - 2022

Skills

- **Languages**

  Java, JS, HTML, CSS, TS

- **Frameworks and Libraries**

  Hibernate, React, Spring boot, Apache Maven, Bootstrap, Jquery, JavaFx, Angular, Spring

- **Version Control**

  Git

- **Database Management System**

  MySQL

- **Tools**

  Visual Studio Code, Intellij Idea, Figma, Postman

- **Operating Systems**

  Windows, MacOS, Linux
